

GuangJian ZHANG

Undergraduate in Physics · Shenzhen University

Researching holographic
superconductivity via AdS/CFT
duality,
and aiming for graduate study in
theoretical physics.

Skills

- **Programming:** Python, Mathematica, MATLAB, HTML/CSS
- **Scientific Computing:** Data analysis, numerical simulation, symbolic computation
- **Physics Expertise:** Quantum mechanics (advanced), General relativity, AdS/CFT correspondence
- **Tools & Writing:** LaTeX, , academic presentation

Research Experience

Undergraduate Researcher — Holographic Superconductivity

Advisor: Prof. Luyang Wang, Shenzhen University · 2024 – Present

- Studying AdS/CFT-based gravitational models for holographic superconductors.
- Developing skills in Mathematica modeling and theoretical analysis.

Education

Sep 2023 – Jul 2027(expected)
B.Sc. in Physics, Shenzhen
University, China

GPA: 3.9 / 4.5 · Excellence Program in
Physics (research-intensive training)

Honors & Awards

**Excellence Program Scholarship,
Shenzhen University (2023–2025)**

Awarded annually for outstanding
academic performance in the top of
the Honors Physics Program.
